This is a Core IMPACTS course that is part of the Social Sciences area.
Core IMPACTS refers to the core curriculum, which provides students with essential knowledge in foundational academic areas. This course will help students master course content, and support students’ broad academic and career goals.
This course should direct students toward a broad Orienting Question:
• How do I understand human experiences and connections?

Completion of this course should enable students to meet the following Learning Outcome:
• Students will effectively analyze the complexity of human behavior, and how historical, economic, political, social, or geographic relationships develop, persist, or change.

Course content, activities and exercises in this course should help students develop the following Career-Ready Competencies:
• Intercultural Competence
• Perspective-Taking
• Persuasion

Course Overview:
This course introduces students to the history, theory and practice of international development. Students will examine the different meanings and objectives of global development, paying particular attention to economic growth, poverty alleviation, inequality reduction, capability enhancement, the defense of human rights and sustainability. They will also learn about competing theories of development, with particular emphasis on modernization, dependency, neoliberal and post-development paradigms. Students will also be introduced to different actors actively involved in the field, such as the state, non-governmental organizations (NGOs), official development assistance (ODA) agencies, multilateral agencies, and business. Through real-world cases, the course will address the consequences of development initiatives and projects. This introductory course will prepare students to better understand, assess and participate in the project of global development. Students will also be ready for more advanced courses on development.
**Learning Outcomes**
Students will be able to:

1. Demonstrate the ability to describe the social, political, and economic forces that influence social behavior and the global system
2. Describe, measure, and assess the different goals pursued in international development
3. Understand and critically evaluate some of the prevalent theories in the field
4. Use this knowledge in a practical problem-solving way to analyze and address issues of immediate international concern.
5. Describe key international financial institutions, states, firms, and civil society organizations and explain how they frame development issues
6. Express their arguments clearly and effectively both in written reports and class discussions

Late assignments will NOT be accepted, except for medical or personal emergencies upon verification.

**Attendance and Class participation (10%)**
Attendance is required and students must complete the assigned readings before class in order to participate in class activities. Absences will count against students’ participation score. The class participation mark will be based on attendance AND the quality of your in-class oral comments as well as on the quality of your performance on written exercises that will be handed to you in class.

**In class worksheets and quizzes (20%)**
*Worksheets:* Throughout the course, students will participate in different in-class activities, including discussions, small group projects and case analyses. In some of those activities, students will be required to complete written worksheets. There are three possible grades for the worksheets: check plus, check minus and 0. The lowest worksheet score will be dropped.

*Quizzes:* Students will complete up to 4 quizzes throughout the course. These short quizzes will have two short answer questions related to the readings for the class. The lowest quiz score will be dropped.

**Midterm Exam 1 (20%)**
This midterm exam will take place on February 16, 2023. More details will be provided before the exam.

**Midterm Exam 2 (20%)**
This midterm exam will take place on Thursday, April 6, 2023. More details will be provided before the exam.

**Final exam (30%):** The final exam will take place according to the registrar schedule.

**Grades**
Your final grade will be assigned as a letter grade according to the following scale:

- A 90-100%
- B 80-89%
- C 70-79%
- D 60-69%
- F 0-59%

**Grade Change Policy**
Legitimate requests for grade changes are welcome. However, you should resist the temptation to file a frivolous request just hoping to “get lucky”. Simple computational or clerical errors should be brought to the professor’s attention immediately. Otherwise requests for grade changes must: i) be submitted in writing either electronically or in hard copy, ii) be submitted within 7 days of receiving the graded assignment, and iii) be no longer than 600 words and no shorter
than 150 words. Requests for grade changes should identify what was required in the assignment, describe precisely how these requirements were fulfilled at a level above the received grade and address any relevant comments written by the professor on the graded assignment (if applicable) and explain why they do not apply. Note that grade changes requests can result in re-grades both up or down (or left unchanged). That is, if the greater scrutiny demanded by a grade change request reveals your assignment to deserve a lower grade than previously awarded, then the lower grade may be assigned.

**Policy on Attendance and Absences**

Attendance is required, although each student can have 1 (one) unexcused absence without penalty. Absences for medical or personal emergencies will be excused upon verification by the Office of the Dean of Student Life. Absences due to participation in Institute activities including school athletics will be excused upon verification by the registrar. Absences due to military service will be handled on a case-by-case basis and subject to verification.

In the event of an unexcused absence, you will NOT be granted any special accommodations including but not limited an opportunity to make up work for in-class exercises. Thus, if you miss class due to an unexcused absence, you are likely to suffer a grade penalty due to your inability to participate in an in-class exercise or in class discussion. You will also be responsible for any material, assignments, or announcements covered in class that you miss as a result of an unexcused absence.

Course participants will treat each other with respect. Constructive questioning and criticism are welcome, even encouraged. Personal attacks and insults are not. The rule of thumb here is that critical comments and questions should be maturely phrased in a manner that

**Statement on inclusiveness**

The Ivan Allen College of Liberal Arts supports the Georgia Institute of Technology’s commitment to creating a campus free of discrimination on the basis of race, color, religion, sex, national origin, age, disability, sexual orientation, gender identity, or veteran status. We further affirm the importance of cultivating an intellectual climate that allows us to better understand the similarities and differences of those who constitute the Georgia Tech community, as well as the necessity of working against inequalities that may also manifest here as they do in the broader society.

**Academic misconduct**

According to the Georgia Tech honor code, academic misconduct is any act that does or could improperly distort Student grades or other Student academic records. Such acts include:

- Possessing, using or exchanging improperly acquired written or verbal information in the preparation of any essay, laboratory report, examination, or other assignment included in an academic course;
- Substitution for, or unauthorized collaboration with, a student in the commission of academic requirements;
- Submission of material that is wholly or substantially identical to that created or published by another person or persons, without adequate credit notations indicating authorship (plagiarism).
