

**Christopher McDermott**  
**Associate Director of Academic Programs**  
**Sam Nunn School of International Affairs**

## **EDUCATION**

**M.S. in International Affairs**  
Georgia Institute of Technology

**B.A. in History**  
Kennesaw State University

## **PROFESSIONAL EXPERIENCE**

**Associate Director of Academic Programs** **August 2023 to Present**  
*Sam Nunn School of International Affairs*

Proficiency in Navigate360, Banner, and DegreeWorks. Advised students during iGniTe FASET program and all sessions of First Year/Transfer/First Year Study Abroad FASETs. Address student concerns on course selection, graduation, readmission, and individual research goals; including independent study guidance and course creation. Advise faculty on solutions to student concerns. Support planning initiatives and advise curriculum changes. Direct annual student visit to the Center for Strategic and International Studies.

**Instructor, American Government** **May 2020 to Present**  
*Sam Nunn School of International Affairs*

**Instructor, Scenario Writing and Pathgaming** **August 2018 to Present**  
*Sam Nunn School of International Affairs*

**Instructor, Careers in International Affairs** **January 2024 to Present**  
*Sam Nunn School of International Affairs*

**Associate Director** **July 2022 to August 2023**  
*Center for International Strategy, Technology, and Policy (CISTP)*

Provide research support on faculty grants. Manage activities for CISTP/Sam Nunn School of International Affairs grants from federal sources, nonprofits, industry, and local endowments. Tasks included drafting interim and final reports, drafting budgets in Excel for grant renewal and new grant submission, and researching new grant opportunities. Responsible for maintaining CISTP and the Sam Nunn School's relationships and public image across Georgia Tech's campus, metro Atlanta, and Washington, DC. These collaborations have led to event co-sponsorship and/or grant proposal co-sponsorship. Regularly manages events with invited speakers including military officials, international and federal government officials, and national and international scholars. Current research is on wargaming, simulations, and scenario writing with a specific focus on promoting practical learning within the Sam Nunn School curriculum.

**Research Associate I** **May 2015 to June 2022**  
*Center for International Strategy, Technology, and Policy*

## **STUDENT ADVISORY ROLES**

Advisor, Georgia Tech Simulation and Modeling Student Organization, January 2023 – May 2024

Advisor, Georgia Tech Model NATO, November 2022 – Present

Advisor, International Affairs Student Organization, August 2024 - Present

Co-Advisor, Georgia Tech Model United Nations, January 2020 – May 2022

## **LEADERSHIP AND SUPERVISION**

Advised CISTP's Research Assistant (RA) during the 2022 Summer Semester. Under guidance, the RA developed a hypothetical scenario that explored the potential for a Chinese invasion of Taiwan. They also supported data collection for CISTP activities and research.

Managed the Neal Family Fellow during the 2021 Summer Semester. The Fellow provided event write-ups and support, grant opportunities research, research support, communications support, and developed surveys for event and research data collection.

The Sam Nunn School of International Affairs assigns a Graduate Student each semester to support CISTP research and programmatic activities. So far that has included nine different graduate students over fourteen semesters. These students report to the Associate Director at CISTP and provide event write-ups and support, grant opportunities research, research support, and communications support.

Supervise Graduate Teaching Assistants for American Government (INTA 1200) from Summer 2020 and 2021 semesters. Student(s) were responsible for supporting discussion board discourse, holding office hours, student communication, and grading.

## **CURRICULUM DEVELOPMENT**

Developed a novel approach that utilizes a combination of free technology (Slack communication software, Microsoft Teams, and Google Docs) available to all students and concepts/methods used in the Scenario Writing and Path Gaming course. Faculty have recognized that using scenarios/simulations in their courses is a useful method to apply concepts and theories learned in class to real-world, applicable settings.

## **AWARDS**

2020 Buzz Award Recipient for Excellence in Administrative Service

Thank a Teacher Award Recipient: Scenario Writing and Pathgaming; American Government
