Counts Towards B.S. and M.S. (6 Credit Hours)

The 5-Year program allows you to receive credit for INTA 6202/6302 by taking them as an undergrad student. This drops your total credit hours required for the graduate degree from 42 hours to 36 hours. INTA 6202/6302 fulfill the INTA 3203/3301 requirements for your undergrad degree.

	Term	Grade	Credit Hours
INTA 6202			3
INTA 6302			3

Students must choose 2 tracks of focus amongst:

International Affairs & Security
Globalization & Development
Comparative & Regional Studies
Science & Technology

Important Notes:

- Science & Technology track must complete one additional track elective in lieu of a free elective
- One graduate level elective may be taken pass/fail and still count towards the degree. Students must achieve a grade point average of at least 3.0 to graduate, and no course below grade C will count toward graduation.
- Taking Macroeconomics and Microeconomics as an undergraduate student fulfills the economics requirement for your graduate degree but does not count as credit hours toward your 36 total
- Taking MGT 3660 as an undergraduate student fulfills the global economics requirement for your graduate degree but does not count as credit hours toward your 36 total
