# SURAJ SEGHAL

BS ISYE, INTA MINOR

"So, I think International Affairs has really given me that people and policy perspective, recognizing that it's not always about having the perfect technical solution, but also thinking about that technical solution in the context of culture, and policy, and the people on the ground."

# MAGGIE KELLETT

BS BA, INTA MINOR

"I think it is so valuable, especially just whether it's International Affairs or something that's just different your major, I think exploring something different from your major it could, help you, I think it helps you do better in your major classes because you don't feel burnt out or bogged down. It gives you a break. It gives you different way of thinking, a different perspective. You get to interact with different types of students."
