

Georgia Tech Lorraine Campus in Metz, France

Georgia Tech European Union Summer Study Abroad Program

Program Dates: May 10 – July 19, 2020

Why study the EU?

Comprised of 28 countries representing nearly 500 million citizens, the EU represents decades of groundbreaking political and economic integration. A major player in global trade, development, security, and scientific research, the EU is the largest economic bloc in the world, generating over 20 percent of the global GDP with only 7 percent of the world's population. The amount of high-level contact with officials and representatives of the EU, member states, and NATO delegations, coupled with home stays with local families and extended trips to important cities creates a unique opportunity for students *of all backgrounds and majors*.

PROGRAM ADVANTAGES:

- Enjoy the full GTL campus experience for the first half of program with ***NO Friday classes*** and independent ***travel during the first month***. Spend four weeks living with host families in ***Brussels, Belgium ("the D.C." of Europe; official seat of EU institutions!)***
- Get immersed in Europe with extended trips to ***Paris, France*** and ***Berlin, Munich, Germany*** and short trips to ***Normandy, France; Bruges and Gent, Belgium, Bucharest, Romania, and The Hague, Amsterdam, the Netherlands***
- Visit sites to learn the inner workings of the European Union. Meet Members of Parliament, Diplomats, IGO and NGO employees who play key roles in EU policy
- Gain a ***Certificate in European Union Affairs*** upon completion of the program
- ***OPEN TO ALL MAJORS WITH NO PRE-REQs***

Earn 13 academic credit hours in 10 weeks
