Spring 2021

**Class Day: M/W 12:30-1:45 Taught remotely:** There will be a mix of synchronous and asynchronous delivery as specified on the syllabus.

**Prof. Katja Weber** Email: katja.weber@inta.gatech.edu

**Office Hours:** By appointment (email to set up a virtual meeting or phone call)

## Course Description:

The purpose of this course is: 1) to expose students to the history of European security provisions beginning with the early post-1945 period; 2) to familiarize students with the significant changes the international system experienced in the late 1980s; 3) to analyze the principal explanations given for various security proposals in the post-Cold War environment; 4) to discuss possible scenarios of a "new world order" and to speculate about future developments.

## Course Goals and Learning Outcomes:

By the end of this course, students should be able to identify major European security developments from the post-1945 period to the present. Students should also be able to account for the significant changes observed in the international environment in the late 1980s, identify major challenges European security actors confront today and, making use of various conceptual frameworks the students were exposed to during their academic career, hypothesize/speculate about what scholars and policymakers make of today's challenges. Students should also be able to express their arguments clearly and effectively both in written reports and in their research.

## Course Requirements and Grading:

**Class participation 20%** (You need to share your thoughts in breakout sessions, via chats and by posting to the course's *Discussion* section on Canvas).

**Research paper 50%** (further directions will be given in class)

**2 Prompts (15% each) 30%.** In your entries of 350-500 words you will be asked to reflect on the readings/course materials and demonstrate critical thinking. It is not enough to merely recount the readings, but rather, you are expected to present your own thoughts (analysis) of the material studied (for due dates see below).

## Grading Scale

Your final grade will be assigned as a letter grade according to the following scale:

A	90-100%
B	80-89%

C	70-79%
D	60-69%
F	0-59%
